

Juki Overlockers Are Easy To Use & Are Known For Their High Quality Sewing Performance

**Perfect For Clothing, Home Decorating
& Crafts**

MO-654DE

The **Juki Pearl Line** Home Overlockers offer two exciting models to expand your sewing capabilities. Create the latest fashion or decorative home items and craft with the MO-654DE four-thread machine. The MO-654DE has differential feed and built-in rolled hemming.

The **Pearl Line overlockers** are ideal for using with today's latest fabrics well as decorative threads. Add overlocking techniques to your world of sewing and open new doors to design opportunities

Easy to follow Colour-Coded Thread Guides

Threading the MO-654DE is simple. The thread paths are colour-coded and clearly marked.

Easy Built-In Roll Hem

Achieve a beautiful rolled edge very easily by moving the lever on the needle plate towards you and adjusting one of the tension dials

Easy Tension Adjustment

1-Rotation Thread Tension Dials with normal tensions highlighted for simple, consistent tension adjustment

Bright Light

Lighting on the MO-654DE provides optimum lighting to the fabric and needle area

Easy to Adjust Stitch length

Adjustable Stitch Length within the range of 1- 4mm, by turning the dial conveniently located on the right-hand exterior of the machine

Differential Feed

Differential feed is to ensure that you always have a perfect seam. The differential feed also gives you the capability to gather lightweight fabrics and give you a lettuce leaf edge on different texture fabrics using the rolled hem facility.

Heavy Duty Knife System

The knife system on the MO-654DE operates with a dedicated drive to assure consistent and easy cutting for both light and heavy fabrics

Quick Width Cutting Adjustments

The lower Knife Adjustment knob adjusts the lower knife quickly to change the width of fabric in the seam allowance, for perfect seams and rolled edges

Multi-Purpose Foot

The Multi-Purpose Foot, Standard on the MO-654DE, allows you to create overlock stitches and add tape, elastic, ribbon or sequins to your creations. Snap-on presser feet mean that you can easily change from the multi-purpose foot on one of the Juki Specialty feet and expand the creative potential of the MO-654DE

Overlock Precision

The built-in seam guide takes the guess work out of seam allowances. Use the conveniently located gauge on the guard cover. This will give you accurate seam allowances while your overlocking

Specifications

Number of threads: 2/3/4 Threads

Overlocking width: Left needle: 6mm/Right Needle: 4mm Rolled hem: 2mm

Stitch Length: 1 to 4mm (standard: 2.5mm) Rolled hem: 1.5mm

Differential Feed: 0.7 to 2.0 Ratio

Tensions: Industrial Type Dial / 1 Rotation

Built-in Rolled Hemming: Right (Narrow) or Left (wide) Needle / 2 or 3 thread

Sewing Speed: Max 1,500 s.p.m

Dimensions: 270mm(W) x 345mm(D) x 295mm (H)

Weight: 7kg
